

# TWO HANDS

355 West 16th Street, New York, NY

## *Description*

Two Hands is a community-focused cafe that strives to create nutritious, simple, and delicious food paired with exceptional coffee. Taking inspiration from Australia's forward-thinking culinary scene and relaxed beachside lifestyle, Two Hands aims to be a place for the community near and far to unwind in the light-filled space. The menu, together with the coastal-inspired interiors and caring service, will have guests feeling a world away from the day-to-day grind of NYC.

Ryan Soames completed the MEP-FP engineering for the new Two Hands location in NYC of 2,500 square feet, including the main restaurant on the first floor and the kitchen and back of house areas in the basement of this landmark building.
