

COMPREHENSIVE MEDICAL DIAGNOSTICS

300 Princeton Hightstown Road, East Windsor, NJ

Description

Medical diagnostic facility fit-out of an approximately 940 gross square foot unfinished demised space on the 2nd-floor within an existing two-story multi-tenant professional-medical building. The work required of Ryan Soames Engineering was the engineering design of mechanical, electrical, plumbing, fire protection, and fire alarm systems for the space.
