

# CITY CAVE WELLNESS SPACE

625 East Sunrise Boulevard, Fort Lauderdale, FL

## **Description**

City Cave Float and Wellness Center provides float therapy, infrared sauna and massage services to assist in the health journey of their clients through natural mental health remedies while supporting physical recovery. Ryan Soames Engineering took an existing white box space and modified the electrical, mechanical, and plumbing to fit the client criteria. In the process, RSE guided the client in understanding the nuisances of local code, filing processes and conversion to US standard measurement.
