

GZA GOLF LLC

MULTIPLE LOCATIONS

Description

Golfzon Social & Golfzon Range are expanding into the NYC area with state of the art golf simulators for golf lessons and recreational use. Each location has a fully equipped kitchen and bar. To assist with Bright Architecture's design, Ryan Soames Engineering has provided mechanical, electrical, plumbing, fire protection, low voltage (IT/AV/Security) design, and fire alarm engineering design to maximize the full indoor golf experience. Catering to each locations unique requirements, RSE has delivered an efficient layout that utilizes creative solutions to address the specific design considerations required for a successful indoor golf space.
