

EUROPEAN WAX CENTER

Nationwide

Description

Ryan Soames Engineering collaborated with the GF55 Architects Franchise Division to provide Mechanical, Electrical, Plumbing, Fire Alarm, Sprinkler and Energy (MEP-FP) Engineering, design, and consultancy services to a number of European Wax Center locations nationwide.

Each of the projects are of approximately 5,000 square feet and are located on the ground level of multi level buildings with independent egress or as a tenant in various strip malls.
